Introduction

Gone are the days when using social media for business was optional. Today almost every company is using social media to market their products or services. If you're not, maybe you have not yet seen the benefits and importance of putting your business on the social media platform.

Popular social media platforms like Facebook and Instagram have become marketing giants, giving businesses an effective way to engage with customers, but most importantly a costless way to reach them. Here are some of the benefits of social media marketing:

- Social media posts can be used to drive targeted traffic.
- Using social media for business boosts your site's SEO.
- If you're doing it right, social media will lead to real relationship building.
- Users are receptive to your messages.
- Social media ads allow targeting and retargeting.
- Social media can help you get noticed at events, and even generate earned media coverage.
- You can respond to problems immediately.
- A strong social media presence builds brand loyalty.

We can also target freelancers and bloggers who want to monitor traffic on their website.

Demographics: We can target Marketing managers in large companies as well as founders/CEOs in small and medium companies. We can also target web design/ development freelancers in the ages of 20-30.

Social Media Strategy

We shall first have a meeting with all stakeholders and decide upon the goals and targets for social media marketing campaigns. The goals are generally to increase Sales, traffic or Engagement. Our Social media strategy will be highly customised to the needs of the client.

Communication themes:

We will project [example.company] as a robust real-time analytics and intelligence platform.

We'll keep posting updates about new feature launches, feature improvements, customer testimonials, offers, etc.

Our Focus will be on social engagement rather than social activity.

We will simultaneously run ad campaigns on all social media channels targetting the specific target audience, in order to boost sales.

The following tasks are involved in designing and managing social media strategy:

- Create budgets for social media activities
- Plan social media campaigns
- Work with internal stakeholders
- Recruit and manage the social media marketing team for your organization
- Manage change and adopt social media into the corporate culture
- Work with other marketing branches to integrate different activities

Campaign Implementation

Once we decide on the social media strategy, we will undertake the following taks:

- Manage social media campaigns and day to day activities
- Manage presence in social networking sites
- Brand advocacy
- Community outreach
- Manage a blogger outreach program
- Build a brand ambassador network
- Post and comment on relevant blogs
- Seed content into social networks
- Write editorial content
- Create and upload videos
- Engage in conversations and answer questions
- Create and maintain a social media editorial calendar and posting schedule

Monitoring and Reporting

We need to measure the results as we run the campaigns. We will measure and report on the following social KPI's:

- Number of followers
- Number of mentions
- Likes, shares, comments
- Time spent
- User sentiment
- Lead conversion rate, etc.

The following tasks will be taken up as part of social media monitoring:

- Develop benchmark metrics to measure the results of social media programs
- Analyze and evaluate social media campaigns and strategies
- Report on effectiveness of campaigns at the end of every month.
- Monitor trends in social media
- Monitor the activities of main competitors in social media
- Monitor social space for brand and related topics and conversations
- Understand how the social media impacts search traffic
